## Samvitti Capital launches new investment fund

**OUR BUREAU**

Mangaluru, March 14

Samvitti Capital, a SEBI registered asset management company from Mulki in Dakshina Kannada, on Wednesday announced the launch of its new alternative investment fund (AIF) - 'Samvitti Capital Alpha Opportunities'.

A press release said here that it would

be open-ended in nature and focused entirely on the secondary markets. The capital for this AIF will be raised largely from high networth individuals, corporates and family offices. It said that Samvitti Capital manages assets of over ₹340 crore with more than 100 clients.

With a focus on short-term opportunities only, the key strategies in this fund

will be based on price/result momentum, index-based strategies and special situations, it said.

Quoting Prabhakar Kudva, co-founder and Director of Samvitti Capital, the release said the investment strategies are based on analytical analysis and founders' 40 years of cumulative experience dealing in capital markets.
